

PECULIAR CHUKWUDI

Fullstack Developer

PROFESSIONAL SUMMARY

Fullstack Developer with strong expertise in building responsive, user-focused web applications using modern technologies. Skilled in frontend development with React, Typescript, Tailwind CSS, and JavaScript, alongside robust backend experience with Django and PostgreSQL. Adept at designing scalable architectures, developing RESTful APIs, and integrating frontend and backend systems for seamless functionality. Passionate about creating intuitive digital experiences and continuously improving code quality and application performance.

WORK HISTORY

Software Developer, 09/2023 to Date

United Bank for Africa - Lagos

- ❑ **HR Outsourcing Management System:** Designed and developed the frontend of an HR outsourcing management platform using React, streamlining employee onboarding, payroll processing, and contract management with an intuitive and user-friendly interface.
- 🔗 **Commercial Payment solution:** Built a responsive payment solution portal with React and integrated backend services using Django REST Framework, enabling real-time updates and secure transaction handling. Improved user experience and satisfaction.
- 🔗 **Insurance Claims Portal:** Built a comprehensive insurance claims interface using React and Tailwind CSS, implementing complex form validations and state management.
- 🔗 **API Integration & Optimization:** collaborated with cross-functional teams to integrate and optimize RESTful APIs.
- 🔗 Mentored an intern developer on coding practices and development.

Fullstack Developer, 10/2020 to 08/2023

TLBC International - Awka, Anambra State

- **Activity Tracking System:** Developed a modern React interface with Bootstrap styling and real-time collaboration features using WebSocket. Created a library of reusable components that streamlined development and maintained consistent UI patterns across the application.
- 🔗 **E-commerce Website:** Designed and implemented a fullstack e-commerce platform with **React** and **Redux** for dynamic product browsing, and **Django** for backend services including product management and order processing. Integrated PayStack for secure payments, resulting in improved conversions.
- ❑ **HR Portal:** Built a comprehensive HR management system with **React** and **Django**, supporting members onboarding, attendance management, profile updates, financial management, event management, etc. Employed efficient state management on the frontend and developed backend APIs for secure data handling and streamlined HR workflows.

EDUCATION
